Do not deny Uber the right to work in SC! #1 it is our right to have a business as long as it breaks no laws. #2 They are operating a superlative business - at least in Charleston - to most cab drivers. Yes, competition hurts, but wasn't that what made America great?

To Whom it may concern,

As a young professional in South Carolina, I feel that it is my duty to be involved in my community. That being said, Uber has provided many of my friends, family, and colleagues a safe alternative to taxis. As a young female, I appreciate the tracking capabilities uber provides and have never felt anything but safe with their employees. The efficiency of uber has deterred many of my friends from drinking and driving. I am nervous that with the high demand of taxis and their inability to respond quick enough to this demand that many young professionals will risk drinking and driving. I know that there may be criteria that may need to be met, but I believe the positives of uber far outweigh the negatives. Let's not take away another resource that our friends may use to get a safe ride home.

Thank you for your time,

Olivia

Subject: Uber

Good afternoon,

Our household was very disappointed to hear the state has shut down Uber. Currently the cab services in the upstate can not handle the volume and their services are far from acceptable. We would certainly be in favor of the state working this out in a timely manner to get Uber back up and running.

Best Regards,
Jason Graydon

Subject: #SCneedsUber

Uber has set the standard for consumer safety in the Palmetto State. All uberX rides are [insured](#) up to \$1,000,000, which is 20x the \$50,000 required of taxis in the state, and all drivers on the uberX platform must pass [background checks](#) at the county, state, and federal level before they are able to drive on the Uber platform. Our commitment to safety exceeds the current state requirements, which is why we are incredibly surprised and disappointed by the actions of the PSC.

Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides.
